

T PR

Test Prep Catalog

SchoolsPLP offers many test preparation courses. Preparation courses for certifications, see the [P-CTE & Electives](#) catalog. There are courses that equip students with the job-specific knowledge and skills needed to prepare for industry certification exams and future careers. The certification courses are aligned with the direct learning objectives of the certification exams, providing both students and teachers an opportunity for strong efficacy from instruction to the exam.

The Test-Prep courses described on the next page include the following:

- The **ACT Prep** course covers English, Math, and Science subject matter and includes quizzes and written assignments.
- The **English and Math High School Readiness Assessments** are designed to assess whether students are ready for high school material and provide remediation as needed.
- The **GED courses** cover Language Arts/Writing, Mathematics, Science, and Social Studies and are individualized based on each learner's needs.
- The **U.S. Citizenship Preparation** course helps prepare immigrants for the naturalization process and covers topics such as the U.S. system of government, rights and responsibilities, American history, U.S. geography, and symbols and holidays.

For questions about other test preparation courses not listed and to discuss in more detail, please reach out to:
